

**MAJU BERSAMA**  
Authorized KSB Distributor & Service Partner

## OUR BUSINESS

**Pump**

**Valve**

**Spare Parts**

**Service**

# COMPANY PROFILE

PT Pratama Maju Bersama Teknik (Member of MAC Group)  
as stockist for KSB pumps, valves and spareparts, also  
authorized service partner with certified technicians

## OUR MISSION

Prosper with customer

## OUR VISION

Original products, best service and good price

## OUR VALUE

Polite, tenacious, truthful and responsible

## WHY CHOOSE US

Due to the fact that our business is a first-hand direct distributor, always stocks in large quantities, and has a strong dedication to giving consumers the finest service.

# CLEAN WATER CENTRIFUGAL PUMP

ONE PUMP FAMILY - LIMITLESS OPTIONS

## ETANORM

ETANORM IS A CENTRIFUGAL LONG-COUPLED END-SUCTION PUMP

Flow (Q) [m3/h]	max. 1368
Head (H) [m]	max. 160
Material	Cast Iron, Stainless Steel, or Bronze
Seal	Gland-Pack or Mechanical Seal
Impeller	Closed
Benefit	KSB Germany technology for efficiency and long-life World's no 1 best-seller that comes in many sizes, material options, and sealing options

## ETABLOC

ETABLOC IS A CLOSED-COUPLE VERSION OF ETANORM

Flow (Q) [m3/h]	max. 740
Head (H) [m]	max. 160
Material	Cast Iron, Stainless Steel, or Bronze
Seal	Gland-Pack or Mechanical Seal
Impeller	Closed
Benefit	Very efficient pump with No coupling effort and No re-alignment effort

## ETALINE

ETALINE IS A SINGLE STAGE IN-LINE PUMP

Flow (Q) [m3/h]	max. 850
Head (H) [m]	max. 140
Material	Cast Iron, Stainless Steel, or Bronze
Seal	Gland-Pack or Mechanical Seal
Impeller	Closed
Benefit	Space efficient and easy piping due to straight line between suction and discharge

## ETAPRIME

ETAPRIME IS A SELF-PRIMING PUMP

Flow (Q) [m3/h]	max. 150
Head (H) [m]	max. 100
Material	Cast Iron, Stainless Steel, or Bronze
Seal	Gland-Pack or Mechanical Seal
Impeller	Closed
Benefit	Comes with priming tank, designed to handle negative suction with easy maintenance effort

**Note :** Other material variants possible upon request. Contact us if you need a solution.

## ABOUT SPECIFICATIONS

One of the things that makes KSB Eta pumps so effective and popular is the optimized hydraulic design that provides excellent pumping efficiency

**ETA DOES NOT WASTE ANY ENERGY.**

## SCOPE OF APPLICATIONS

General water in-take, cooling tower, chiller / HVAC, irrigation, landscaping, warm, hot and cold water circulation, condensate water delivery and fire fighting applications

For more information visit the link

[WWW.MAJU.BIZCO.ID](http://WWW.MAJU.BIZCO.ID)

# HIGH CAPACITY SPLIT-CASE PUMP

**EFFECTIVE &  
TIMELY DELIVERY**

## OMEGA

## GAMMA

**OMEGA IS A SINGLE-STAGE  
AXIALLY SPLIT VOLUTE CASING  
PUMP**

<i>Flow (Q) [m<sup>3</sup>/h]</i>	max. 2880
<i>Head (H) [m]</i>	max. 220
<i>Material</i>	Cast Iron, Stainless Steel or Bronze
<i>Seal</i>	Gland-pack or Mechanical Seal
<i>Impeller</i>	Closed
<i>Benefit</i>	Low maintenance costs, long service life, high operating reliability, high flexibility, excellent efficiencies and NPSH values

**GAMMA IS A AXIALLY SPLIT  
VOLUTE CASING PUMP**

<i>Flow (Q) [m<sup>3</sup>/h]</i>	max. 3200
<i>Head (H) [m]</i>	max. 87
<i>Material</i>	Cast Iron, Stainless Steel or Bronze
<i>Seal</i>	Gland-pack or Mechanical Seal
<i>Impeller</i>	Closed
<i>Benefit</i>	Newest KSB Split-case pump design, with best value for money

**Note :** Other material variants possible upon request.  
Contact us if you need a solution.

For more information visit the link

[WWW.MAJU.BIZCO.ID](http://WWW.MAJU.BIZCO.ID)

# VERTICAL SUMP PUMP

**HIGHLY-ENERGY EFFICIENT**

## SCOPE OF APPLICATIONS

*In industrial pumping applications, vertical sump pumps are used to remove clean or moderately contaminated liquids, fibrous slurries, and liquids containing massive solids from deep sumps.*

**ESTIGIA IS A CLOSE-COUPLED IMMERSION PUMP FOR MANY KINDS OF FLUID**

<i>Flow (Q) [m3/h]</i>	max. 1160
<i>Head (H) [m]</i>	max. 110
<i>Material</i>	Cast iron or Stainless Steel
<i>Seal</i>	Mechanical Seal or Lip seal
<i>Impeller</i>	Closed
<i>Benefit</i>	Hydraulic characteristics optimised for excellent efficiency and NPSH, ensuring energy-efficient and environmentally friendly use of resources

## ESTIGIA PUMP

## B-PUMP

**B-PUMP IS A CENTRIFUGAL MULTISTAGE VERTICAL TURBINE PUMP**

<i>Flow (Q) [m3/h]</i>	max. 2600
<i>Head (H) [m]</i>	max. 260
<i>Material</i>	Stainless Steel
<i>Seal</i>	Gland-pack or Mechanical Seal
<i>Impeller</i>	Closed
<i>Benefit</i>	Long service life due to high-quality plain bearings with long inspection intervals

**Note** : Other material variants possible upon request. Contact us if you need a solution.

For more information visit the link

[WWW.MAJU.BIZCO.ID](http://WWW.MAJU.BIZCO.ID)

# CHEMICAL PUMP

## MAGNOCHEM

**MAGNOCHEM IS A HORIZONTAL MAGNETIC DRIVE SEAL-LESS PUMP**

<i>Flow (Q) [m3/h]</i>	max. 1400
<i>Head (H) [m]</i>	max. 236
<i>Material</i>	Cast iron or Stainless Steel
<i>Seal</i>	Seal-less, with magnetic coupling
<i>Impeller</i>	Closed
<i>Benefit</i>	Service life improvement Suitable for fluid temperatures of up to 400 °C without requiring an external cooling water supply

## MCPK

**MCPK IS A HORIZONTAL VOLUTE CASING PUMP IN BACK PULL-OUT DESIGN**

<i>Flow (Q) [m3/h]</i>	max. 1160
<i>Head (H) [m]</i>	max. 162
<i>Material</i>	Cast iron or Stainless Steel
<i>Seal</i>	Gland-pack or Mechanical Seal
<i>Impeller</i>	Closed
<i>Benefit</i>	Lower investment costs and lower operating costs due to reduced energy consumption

**Note :** Other material variants possible upon request. Contact us if you need a solution.

## SCOPE OF APPLICATIONS

For handling aggressive organic and inorganic liquids in the chemical and petrochemical industries. They are also used in: refinery off-sites, the paper and cellulose industries, the foodstuffs industry, sugar industry, etc.

## ABOUT SPECIFICATIONS

Chemicals are diluted and used in a solution on site, however handling highly concentrated chemicals carries a certain amount of risk. With the accuracy, safety, compatibility with a variety of control signals and standardized dimensions, KSB's chemical transfer and dosing pumps are helpful in such applications.

**IT PROVIDES EXTRA PROTECTION AGAINST LEAKAGE**

# HIGH PRESSURE PUMP

## MOVITEC

**MOVITEC IS A CENTRIFUGAL RING-SECTION IN-LINE PUMP**

<b>Flow (Q) [m<sup>3</sup>/h]</b>	max. 192
<b>Head (H) [m]</b>	max. 415
<b>Material</b>	Cast Iron, Stainless Steel or Bronze
<b>Seal</b>	Mechanical Seal
<b>Impeller</b>	Closed
<b>Benefit</b>	Flexible, easy to service, long service life: corrosion-resistant hydraulic components made of stainless steel

## MTC

**MTC IS A HORIZONTAL MULTISTAGE CENTRIFUGAL PUMP IN RING SECTION DESIGN**

<b>Flow (Q) [m<sup>3</sup>/h]</b>	max. 1500
<b>Head (H) [m]</b>	max. 1000
<b>Material</b>	Cast Iron, Stainless Steel, or Bronze
<b>Seal</b>	Gland-Pack or Mechanical Seal
<b>Impeller</b>	Closed
<b>Benefit</b>	Optimised efficiencies and reduced operating costs by newly developed hydraulic system

## WK-WL

**WK-WL IS A HORIZONTAL RADIALLY SPLIT, MULTISTAGE RING SECTION PUMP**

<b>Flow (Q) [m<sup>3</sup>/h]</b>	max. 630
<b>Head (H) [m]</b>	max. 780
<b>Material</b>	Cast Iron, Stainless Steel or Bronze
<b>Seal</b>	Gland-pack or Mechanical Seal
<b>Impeller</b>	Closed
<b>Benefit</b>	Minimal vibration and noise, reliable wear-resistant

## HDA

**HDA IS A HORIZONTAL MULTI-STAGE HIGH PRESSURE CENTRIFUGAL PUMPS**

<b>Flow (Q) [m<sup>3</sup>/h]</b>	max. 850
<b>Head (H) [m]</b>	1450
<b>Material</b>	Cast Iron, Stainless Steel, or Bronze
<b>Seal</b>	Gland-Pack or Mechanical Seal
<b>Impeller</b>	Closed
<b>Benefit</b>	Space efficient and easy piping due to straight line between suction and discharge

## HGC

**HGC IS A MULTISTAGE HORIZONTAL RADIALLY SPLIT RING-SECTION PUMP**

<b>Flow (Q) [m<sup>3</sup>/h]</b>	max. 2300
<b>Head (H) [m]</b>	max. 4200
<b>Material</b>	Cast Iron, Stainless Steel or Bronze
<b>Seal</b>	Gland-pack or Mechanical Seal
<b>Impeller</b>	Closed
<b>Benefit</b>	High operating reliability, long service life and low capital expenditure

**Note:** Other material variants possible upon request. Contact us if you need a solution.

For more information visit the link

[WWW.MAJU.BIZCO.ID](http://WWW.MAJU.BIZCO.ID)

# SLUDGE PUMP

## FROM WASTE HANDLING TO ABRASIVE AND CORROSIVE SLUDGE

### SCOPE OF APPLICATIONS

Transfer abrasive and corrosive sludge and slurry efficiently and easily in a wide range of heavy and medium-duty applications, from slurry transfer (cyclone, spirals and filter feed, mill discharge) to tailings disposal, mine dewatering, effluent discharge and more.

### AQUAFLOW

### KNCPP

**AQUAFLOW IS A CENTRIFUGAL SINGLE STAGE DISCHARGE END-SUCTION PUMP**

Flow (Q) [m <sup>3</sup> /h]	max. 350
Head (H) [m]	max. 80
Material	Cast Iron or Stainless Steel
Seal	Gland-pack or Mechanical Seal
Impeller	Open
Benefit	Strong pressure, high efficiency and low axial confidence

**KNCPP IS A HIGH EFFICIENCY SINGLE STAGE DISCHARGE END-SUCTION PUMP**

Flow (Q) [l/s]	max. 700
Head (H) [m]	max. 105
Material	Cast iron or Stainless Steel
Seal	Gland-pack
Impeller	Open
Benefit	More power transmission capability
	The strong & rigid bearing support leg improves mounting stability & eliminates distortion caused by piping loads

**Note :** Other material variants possible upon request. Contact us if you need a solution.

For more information visit the link

[WWW.MAJU.BIZCO.ID](http://WWW.MAJU.BIZCO.ID)

# SUBMERSIBLE PUMP

ENERGY-EFFICIENT FOR PARTICULARLY HIGH HEADS

## AMAREX

## AMAREX KRT

**AMAREX IS A VERTICAL SINGLE-STAGE CLOSE-COUPLED DESIGN**

<i>Flow (Q) [m<sup>3</sup>/h]</i>	max. 330
<i>Head (H) [m]</i>	max. 42
<i>Material</i>	Cast Iron, Impeller made of Duplex Stainless Steel
<i>Seal</i>	Mechanical Seal
<i>Impeller</i>	Open or Semi Open
<i>Benefit</i>	High efficiency and long service life with high operating reliability and durable bearings (100,000 operating hours)

**AMAREX KRT IS A FULLY FLOODABLE NOT SELF-PRIMING CLOSE-COUPLED DESIGN**

<i>Flow (Q) [m<sup>3</sup>/h]</i>	max. 10080
<i>Head (H) [m]</i>	max. 120
<i>Material</i>	Cast Iron, Impeller made of Duplex Stainless Steel
<i>Seal</i>	Mechanical Seal
<i>Impeller</i>	Open or Semi Open
<i>Benefit</i>	Reliable operation and long service life due to corrosion-resistant wetted parts made of stainless steel

**Note** : Other material variants possible upon request. Contact us if you need a solution.

We are also your expert in providing the right solutions of valve for your pumps and systems industry

Selecting the right valves means more protection – both for the safety of your personnel, as well as the overall operation efficiency and uptime

# VALVE

## KSB ISORIA BUTTERFLY VALVE

<b>Type:</b>	Wafer body; Median rib body; Lug body; U-section body
<b>Size:</b>	1 1/2 ~ 60 inch
<b>Class:</b>	10/16/20/25
<b>Body:</b>	Cast Steel, Carbon Steel, Cast Iron, Ductile Iron, SS
<b>Trim:</b>	13% chromium stainless steel / various options based on demand
<b>Actuator:</b>	Electrical, pneumatic
<b>Design:</b>	Wafer-type; flange; screwed flange

## KSB ECOLINE GLOBE/GATE/BALL VALVE

<b>Type:</b>	Straight-way pattern body
<b>Size:</b>	Up to 2 ~ 36 inch
<b>Class:</b>	Up to 600
<b>Body:</b>	Cast Steel, Carbon Steel, SS
<b>Trim:</b>	Trim 8 (Stellite/13% chrome steel) & Trim 5 (Stellite/Stellite) / various options based on demand
<b>Actuator:</b>	Electrical, hand-wheel, pneumatic
<b>Design:</b>	With bolted bonnet, outside screw and yoke; Flanged Ends or Butt-Weld Ends

## KSB MIL CONTROL VALVE

<b>Type:</b>	Single seated Globe Valve
<b>Size:</b>	up to 10 inch
<b>Class:</b>	up to 2500
<b>Body:</b>	Carbon Steel, Alloy Steel, SS
<b>Trim:</b>	wide range of hardened / exotic material
<b>Actuator:</b>	hand operated, spring diaphragm, piston cylinder, electrical
<b>Positioner:</b>	smart single acting / customized

## KSB STRAINER

<b>Type:</b>	Y-pattern strainer to ANSI/ASME
<b>Size:</b>	DN 15 to DN 400
<b>Class:</b>	Up to 600
<b>Body:</b>	Carbon Steel, Alloy Steel, SS
<b>Trim:</b>	Trim 2 (304 SS) and Trim 10 (316 SS) / various options based on demand
<b>Temperature:</b>	-29°C to +816°C
<b>Features:</b>	Long service life due to screen made of stainless steel Standard drain plug for easy inspection

## KSB DANAIS BUTTERFLY VALVE

<b>Type:</b>	Wafer body; Median rib body; Lug body
<b>Size:</b>	2 ~ 48 inch
<b>Class:</b>	150 and B 25
<b>Body:</b>	Cast Stainless Steel, SS, Cast Steel; Nodular Cast Iron
<b>Trim:</b>	13% chromium stainless steel / various options based on demand
<b>Actuator:</b>	Hydraulic, Electrical, pneumatic
<b>Design:</b>	Wafer-type; flange; tongue and groove

## KE PLASTOMER BUTTERFLY VALVE

<b>Type:</b>	Centred-disc butterfly valve
<b>Size:</b>	up to 1.5 ~ 24 inch
<b>Class:</b>	PN 10, 16, ANSI 150
<b>Body:</b>	Cast Steel, Alloy Steel, SS
<b>Trim:</b>	13% chromium stainless steel / various options based on demand
<b>Temperature:</b>	-20°C ~ +350°C
<b>Features:</b>	Applied in highly corrosive fluid – Double/Dual valve body design Dry shaft design without contacting fluid zero leakage

## KSB SICCA GLOBE/GATE VALVE

<b>Type:</b>	Straight-way pattern body
<b>Size:</b>	Up to 1/4 ~ 2 inch
<b>Class:</b>	Up to 4500
<b>Body:</b>	Cast Steel, Carbon Steel, Low-Alloy Steel, SS
<b>Trim:</b>	Stellite hard-faced seat disc interface made of 13% chrome steel / various options based on demand
<b>Actuator:</b>	Electrical, hand-wheel, pneumatic
<b>Design:</b>	With bolted bonnet, outside screw and yoke

**Everything is there when you need it: sealing elements, bearings, impellers and more**

# SPARE PARTS

**Original spare-parts equals to longer life and best productivity for your pumps**

For most benefit, enter an annual spare part contract with us. Get the best lowest price for original KSB spare parts.

**Contact Us:**

[www.maju.bizco.id](http://www.maju.bizco.id)

Along with frequently replaced parts like sealing element sets and bearing and impeller sets, KSB spare parts kits also contain other components exposure to high wear. Practical: Repair kits for pumps of various sizes are frequently available. Furthermore, there is no need to spend time looking for the required individual components.

# SERVICE

## COMMISSIONING

- Analysis of system conditions
- Monitoring of all installation work
- Checks for leakage
- Correct alignment of pump sets

## ROUTINE INSPECTION

Early detection prevents equipment damage, as well as jams or unanticipated damage

## REPAIR/ TROUBLESHOOTING

- Repair on site or off site
- Retrofitting
- Original spare parts
- Services and reverse engineering

## MANPOWER

*Competent and certified engineers*

## EQUIPMENT

*Appropriate tools in accordance with International Standards, KSB Worldwide*

## PROCEDURE

*Guidance in accordance with International Standards, KSB Worldwide*

**Engineers  
Commitment**

To guarantee that your personnel perform to their full potential, we provide a range of adaptable request. You can be confident that your investment is working as hard as you are due to our dedicated technical supports, a solid guarantee, and maintenance. That is our commitment to you.

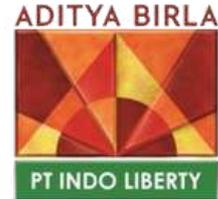

We work with KSB-standard quality, reasonable cost and adjusting to your schedule.
